INCLUDED WITH DEAL DESK

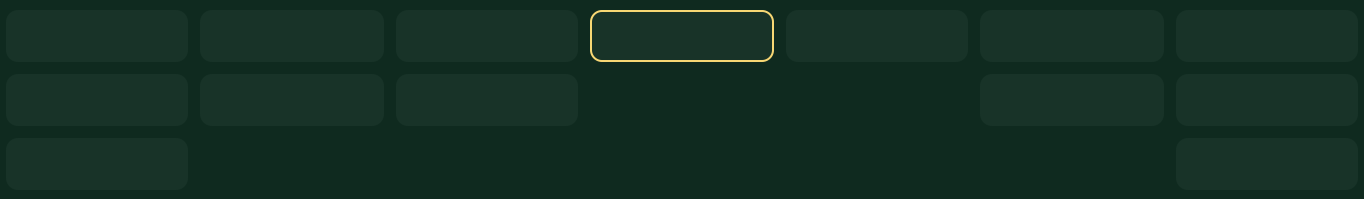

Verdi
— CREATORS —

Every brand deal, in one place

When you sign with Verdi Creators, you get a private portal. It shows every brand we've pitched or you're working with, what's waiting on you, and what you're owed. It's free for clients.

One pipeline, from pitch to paid

Illustration

The highlighted card is an offer waiting for your decision.

What's inside

Home
What needs you today: an offer to decide, a batch to approve, money coming in.

Deals
Every brand by stage, with the offer terms and the history of each deal.

Brands
The brands we've pitched for you and where each one stands.

Rates
Your rate card, with usage and exclusivity priced as add-ons.

Money
What each brand owes you and when it's due, plus our commission, which is due 7 days after you're paid.

You stay in control
You approve each batch of brands and the terms of any offer before we reply. Nothing goes to a brand without a person at Verdi Creators approving it.

Got an offer by email?
Forward it to your Verdi Creators address and it lands in your pipeline, so nothing sits in a DM thread.

Free, private, and yours to take with you
The portal comes with Deal Desk and isn't sold separately. You can export your deal data if we part ways. Start with a free audit of your last six months of deals.
